

# Storskogen's subsidiary Teodoliten acquires Projektstrateg

PRESS RELEASE, 2022-06-09

Storskogen has acquired 70 percent of the shares in Projektstrateg Sverige AB ("Projektstrateg") through its subsidiary Teodoliten Förvaltning AB ("Teodoliten"). Projektstrateg's operations mainly consist of design, measurement technology, digital twins and VR/AR applications. The company reported sales of around SEK 20.8 million and EBITA of around SEK 0.9 million for the extended financial year Sep 2020/Dec 2021. The acquisition contributes to strengthening the vertical Engineering Services, which so far this year has grown by five companies.

Projektstrateg offers services in design, measurement technology, digital twins and VR/AR applications (*virtual reality, augmented reality*) and helps contractors in projects for roads, railways, housing, schools, industry and warehouses, among other things. The company is headquartered in Örebro and has a total of 20 employees. Alex Durand, CEO and co-founder, will continue in his role after the acquisition.

"We are very much looking forward to taking Projektstrateg to new heights together with Storskogen and Teodoliten", says Alex Durand, CEO of Projektstrateg.

Anders Öryd, CEO of Teodoliten, considers the acquisition of Projektstrateg a significant step in the company's development.

"The cutting-edge expertise of Projektstrateg together with the size of Teodoliten will create a wider and more powerful offer for our customers. There is also a beneficial geographical match, as we'll be able to help our customers in the important passage between Stockholm and Karlstad", says Anders Öryd, CEO of Teodoliten.

Projektstrateg will belong to Storskogen's vertical Engineering Services, which is part of business area Services. Responsible for Engineering Services is Thomas Pilo, and the acquisition of Projektstrateg will be the fifth in the vertical so far this year.

"Projektstrateg has an excellent reputation in the market, and I look forward to supporting Teodoliten and Projektstrateg in their continued growth journey. The acquisition of Projektstrateg contributes, together with the other acquisitions

completed in the vertical this year, to creating conditions for strengthening Engineering Services significantly in the near future”, says Thomas Pilo, Investment Director at Storskogen.

The add-on acquisition was completed 8 June 2022.
